STAAR General Bond Fund

INVESTMENT OBJECTIVE

The investment objective of the STAAR General Bond Fund (the "General Bond Fund," or the "Fund") is to create income with an emphasis on safety of principal.

FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy and hold shares of the General Bond Fund.

Shareholder fees (fees paid directly from your investment): None

Annual fund operating expenses (expenses that you pay each year as a percentage of the value of your investment)

Example

This Example is intended to help you compare the cost of investing in the General Bond Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then sell all of your shares at the end of these periods unless otherwise stated. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$196	\$606	\$1,042	\$2,254

Portfolio Turnover

The General Bond Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 35.87% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

Under normal conditions, the General Bond Fund invests in a mix of U.S. government, government agency and corporate debt instruments. These may include U.S. Treasury Notes or Bonds and debt instruments issued by agencies such as the Federal National Mortgage Association, Federal Home Loan Bank, and Federal Farm Credit Bank. Debt instruments issued by companies (corporate bonds) may include Senior and Junior bonds and debentures. Senior issues are secured obligations, which are backed by a legal claim on specific property of the issuer. Junior bonds and debentures are not secured by any collateral.

The General Bond Fund's strategy includes a limitation to investment grade debt instruments (bonds). At the time of purchase, instruments will be rated AAA, AA, A or BBB by Standard & Poors Corporation ("S&P"). These top four categories are considered to be "investment grade". If a holding's rating falls below BBB, Barrel Park Investments, LLC, the investment advisor to the Fund (the "Advisor") will consider the size of the holding and the circumstances causing the lower rating before selling. The Advisor may continue to hold a downgraded security if the Advisor thinks that either the rating will be revised upward in the future and/or that the bond, if held to maturity is likely to be redeemed at par with all interest payments made. As of December 31, 2017, the Fund had 47% of its assets invested in US government, government agency, government money market funds and Federal Deposit Insurance Corporation ("FDIC") backed certificates of deposit ("CDs"). The Fund invested 53% in corporate bonds.

Under normal market conditions at least 40% of the General Bond Fund's total assets must be invested in securities issued, guaranteed or otherwise backed by the U.S. government or government agencies, which may include FDIC backed CDs. This emphasis on quality will tend to produce a lower dividend yield than funds that invest more in lower-rated bonds. However, it will also provide greater safety of principal.

The Fund also may gain exposure to bonds by investing in exchange traded funds ("ETFs").

Cash positions in the General Bond Fund will generally be held in one or more money market funds. At the time of purchase, cash positions must be investment grade (rated BBB or higher). The range of maturity for bonds in the Fund is any length deemed appropriate by the Advisor depending on market conditions and trends.

The Advisor is given a high degree of flexibility in choosing maturities. The range of maturity for bonds in this Fund is any length deemed appropriate by the Advisor depending on market conditions and trends. In times of rising interest rates, their objective will be to have shorter average maturities and in times of stable or falling interest rates, their objective will be to obtain longer maturities. As a result, this Fund will, from time to time, be either an intermediate bond fund, or a long-term bond fund, depending upon its portfolio at the time.

The investment strategy of the General Bond Fund includes intent to hold most bonds to maturity and minimize trading unless market conditions or liquidity requirements make such transactions advisable. This is to keep a stable portfolio base and lower transaction costs. In general, the dollar average weighted maturity of the portfolio will be between two (2) and fifteen (15) years. As of December 31, 2017, the dollar weighted average maturity of the Fund was 2.9 years.

In deciding to buy, hold or sell a particular bond, the Advisor considers a number of factors. First, the Advisor considers the general trend of interest rates to determine whether a longer or shorter maturity is more desirable. Second, the Advisor compares differences in yield against quality ratings to determine whether a particular issue is more or less attractive than an alternative. Third, the Advisor will consider any call provisions. Fourth, the Advisor may consider the bond's price in relation to its maturity or call price. Fifth, the Advisor will consider any income tax effects of the transaction. Sixth, the Advisor will consider any changes in ratings or the financial condition of the issuers of bonds held in the portfolio.

PRINCIPAL RISKS

Shares of the General Bond Fund will change in value and you could lose money by investing in the Fund. It is possible that the Fund may not achieve its investment objective. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the FDIC or any other government agency. The risks associated with an investment in the

Fund can increase during times of significant market volatility. There is the risk that you could lose all or a portion of your money on your investment in the Fund. The principal risks of the Fund include:

Management Risk: There is a risk that the research, analysis techniques and strategies used by Barrel Park Investments, LLC (the "Advisor") and/or the Advisor's selection of securities may fail to produce the intended results.

Bond Market Risk: Investing in bonds may involve risks that affect the bond markets in general, such as general economic conditions, politics, news events and adverse changes in interest rates.

Interest Rate Changes Risk: The value of bonds is directly affected by changes in interest rates. When interest rates go down, the value of bonds goes up, and when interest rates rise, the value of bonds goes down. Generally, bonds with shorter maturities are affected less by interest rate changes than those with longer maturities. Income is affected when interest rates change (the income per share could decrease when interest rates fall).

Default Risk: If the issuer of a bond finds itself in financial difficulties, it could delay payment on the interest it owes to investors. If an issuer entered bankruptcy, interest payments would likely stop all together and the bond holder would have to wait until the bankruptcy proceedings were concluded to find out how much (if any) of the amount invested would be returned to the investor.

Credit Rating Changes Risk: Independent organizations rate the creditworthiness of bond issuers. A high rating means the issuer is considered to be sound financially and presents a low risk of default. If an issuer's rating is lowered, this will tend to have a negative impact on a bond's price.

Government Agency Securities Risk: Debt instruments issued by U.S. government agencies are generally backed by the creditworthiness of the government agency and are not directly backed by the full faith of the U.S. government.

Exchange-Traded Funds Risk: In addition to the risks associated with the underlying assets held by the exchange-traded fund, investments in exchange-traded funds are subject to the following additional risks: (1) an exchange-traded fund's shares may trade above or below its net asset value; (2) an active trading market for the exchange-traded fund's shares may not develop or be maintained; (3) trading an exchange-traded fund's shares may be halted by the listing exchange; (4) a passively-managed exchange-traded fund may not track the performance of the reference asset; and (5) a passively managed exchange-traded fund may hold troubled securities. Investment in exchange-traded funds may involve duplication of management fees and certain other expenses, as the Fund or an underlying fund indirectly bears its proportionate share of any expenses paid by the exchange-traded funds in which it invests.

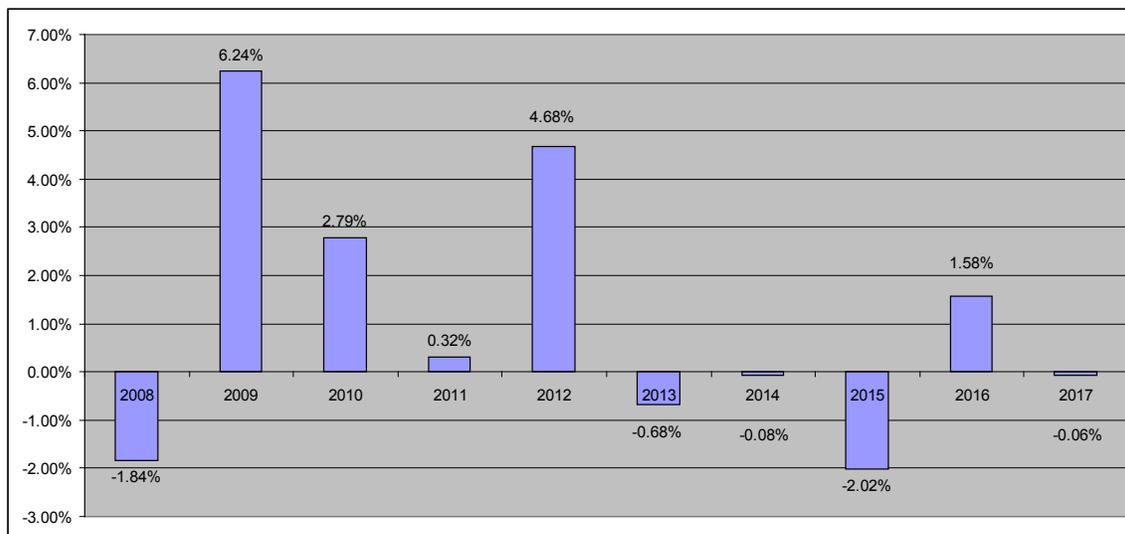

Derivatives Risk: Derivatives are financial instruments whose value is based on (derived) from the value of a financial asset (such as stocks, bonds or currency), a physical asset (such as gold or silver or wheat) or a market index (such as the Dow Jones Industrial Average). Investments in derivatives entail risks that can be different from and potentially greater than those of the underlying assets.

New Advisor Risk: As a newly registered investment adviser, Barrel Park Investments, LLC, the Fund's Advisor currently does not have previous experience managing other investment companies, and therefore, does not have a performance track record.

PERFORMANCE

The bar chart and table immediately following are intended to help you understand the risks of investing in the General Bond Fund. The bar chart shows how the performance of the Fund's shares has varied from one calendar year to another over the periods shown. The table shows how the average annual total returns of each class of shares compare with those of a relevant market index, which has investment characteristics similar to those of the Fund. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund's website at www.staarfunds.com.

Actual after-tax returns depend on your tax situation and may differ from those shown. Furthermore, the after-tax returns are not relevant to those who hold their shares through tax-deferred arrangements such as 401(k) plans or

Individual Retirement Accounts (“IRAs”).

MANAGEMENT OF THE FUND

Investment Advisor

Barrel Park Investments, LLC serves as the Advisor for the General Bond Fund.

Portfolio Manager

Brett Boshco has served as the General Bond Fund’s portfolio manager since February 9, 2018. Mr. Boshco is the Chief Executive Officer of the Advisor and a Trustee of the STAAR Investment Trust (the “Trust”).

PURCHASE AND SALE OF FUND SHARES

The minimum initial amount of investment in the General Bond Fund is \$1,000. The entire amount may be invested in this Fund or may be split among any of the funds in the Trust (the “STAAR Funds”) subject to a \$50 minimum per fund. Subsequent investments in the Fund will be subject to a \$50 minimum per Fund. Investors may purchase, exchange or redeem Fund shares by mail, to Mutual Shareholder Services, LLC, 8000 Town Centre Drive, Broadview Heights, OH 44147, or by telephone at 1-888-717-8227.

TAX INFORMATION

The General Bond Fund’s distributions will be taxed as ordinary income, capital gains or some combination of both, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA, in which case your distributions may be taxed as ordinary income when withdrawn from the tax-advantaged account. A sale or exchange of Fund shares is a taxable event, which means you may have a capital gain to report as income, or a capital loss to report as a deduction on your federal tax return.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s Web site for more information.

The Fund and its Advisor may use derivatives, which are financial instruments that derive their values from the performance of another security, assets or index. Derivatives include options and future contracts.

The Fund may purchase derivatives from time-to-time in the form of covered call options or put options. A "put option" is a contract that gives the purchaser the right to sell a particular stock at a certain price prior to the expiration of the contract. A "call option" is a contract that gives the owner the right to purchase a particular stock at a certain price prior to the expiration of the call option. If an option contract is not exercised by either selling or purchasing the underlying stock during its term, the contract expires and the Fund has no further obligations; however the price paid for the contract is not refunded to the purchaser.

PORTFOLIO TRANSACTIONS

The Fund and its Advisor seek to avoid active and frequent trading of portfolio securities to achieve its principal investment strategies. However, frequent trading may be necessary under certain circumstances such as volatile market conditions or unusual shareholder redemptions. To the extent trading is more frequent, portfolio turnover could increase and short-term tax events may be triggered that would be passed through to shareholders.

The Advisor may, from time to time, take temporary defensive positions that are inconsistent with the Fund's principal investment strategies in attempting to respond to adverse market, economic, political, or other conditions. The Fund may increase or decrease its cash and short-term holdings depending on the Advisor evaluation of market conditions, or when anticipated liquidity needs are a concern. To the extent such temporary positions are employed the Fund may not be able to fulfill its objective for a period of time.

ADDITIONAL INFORMATION REGARDING INVESTMENT RISKS

There are risks associated with investing in the General Bond Fund, and it is possible to lose money. Previously, principal risks were outlined. Additional considerations include:

Market Behaviors Risk: Markets go up and down. Generally, some markets are more volatile than others, including smaller companies and emerging markets. There is always a risk that an individual security or a sector or entire market will decline in price, creating a loss for an investor. Foreign stock markets may be riskier than U.S. markets.

Cash Management Risk: As part of its overall strategy, the Fund's management may increase or decrease its cash positions. The use of cash can adversely affect a fund's performance if too much is held during market advances. Generally the Fund employs one or more money market funds to hold cash. These funds carry their own risks common to such funds, and may under perform other funds with similar objectives.

Temporary Investments Risk: The Fund may take temporary positions that depart from its normal investment strategies and policies when such positions are believed to be in the Fund's best interest. Examples include taking higher than normal cash positions, i.e. 20% or more of the Fund's assets or option contracts designed as "portfolio insurance." An example of portfolio insurance would be purchasing a "put" contract when a market or individual security has advanced beyond expectations.

Derivatives Risk: Derivatives are financial instruments whose value is based on (derived) from the value of a financial asset (such as stocks, bonds or currency), a physical asset (such as gold or silver or wheat) or a market index (such as the Dow Jones Industrial

Average). Investments in derivatives entail risks that can be different from and potentially greater than those of the underlying assets.

Cybersecurity Risk: The Fund's and its service providers' use of internet, technology and information systems may expose the Fund to potential risks linked to cybersecurity breaches of those technological or information systems. Cybersecurity breaches, amongst other things, could allow an unauthorized party to gain access to proprietary information, customer data, or fund assets, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality.

Junk Bond Risk: Though the Fund generally does not own "junk bonds," a rating downgrade could result in the Fund holding a position classified as "junk." Junk bonds expose investors to higher volatility and greater risk of default. Ratings range from AAA (S&P) and Aaa (Moody's Investors Service's ("Moody's")) to D (S&P) and C (Moody's). A rating below BBB- and Baa- respectively signals non-investment grade or "junk" bond status.

DISCLOSURE OF PORTFOLIO HOLDINGS

A list of the Fund's portfolio securities is available in the Fund's Annual or Semi-Annual Reports. These may be obtained from Mutual Shareholder Services, LLC ("Shareholder Services") 8000 Town Centre Drive, Broadview Heights, OH 44147* 1-888-717-8227 (1-888-71STAAR) or at www.staarfunds.com. The Fund's schedule of portfolio holdings are also filed for the first and third quarters each fiscal year on Form N-Q, which is available on the Securities & Exchange Commission's ("SEC") website at <http://www.sec.gov>. Each Fund's Forms N-Q may be reviewed and copied at the SEC's Reference Room in Washington, DC, and that information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. Or the information on Form N-Q may be obtained from Shareholder Services. Information regarding any underlying funds that the Funds might hold can be found in those funds' prospectuses and reports as filed with the SEC. Please consult the Fund's Statement of Additional Information ("SAI") for a description of the policies and procedures that governs disclosure of the portfolio holdings by the Fund.

MANAGEMENT, ORGANIZATION AND CAPITAL STRUCTURE

Management of the Fund

The Advisor, Barrel Park Investments, LLC ("Barrel Park") is located at 120 E. 23rd Street, 5th Floor, New York, New York 10010. The Advisor is a newly organized and registered investment advisor managing the six series of the STAAR Funds. As of February 9, 2018, it has approximately \$11.2 million in assets under management. Barrel Park is a limited liability company organized under the laws of the state of Delaware. Prior to February 9, 2018, Staar Financial Advisors, Inc. served as investment advisor to the Fund at the same rate of compensation as Barrel Park.

Brett Boshco has served as portfolio manager of the Fund since February 9, 2018. Mr. Boshco is the Chief Executive Officer and an indirect owner of the Advisor. Prior to founding Barrel Park, Mr. Boshco was a research analyst for the Evermore Global Value Fund, a global opportunities mutual fund, responsible for investment research, investment analysis, and portfolio trading (2015-2017). Prior to the Evermore Global Value Fund, Mr. Boshco was a research analyst for Steinberg Asset Management, a public equity investment company, responsible for investment research and investment analysis (2009-2013). Mr. Boshco began his career in the Media & Communications Group in the Investment Banking Division of Morgan Stanley (2006-2009). Mr. Boshco holds a Bachelor of Science ("BS") in Economics from Massachusetts Institute of Technology ("MIT") and a BS in Management Science from the Sloan School of Management at MIT.

Management Fees

The Advisor is engaged to manage the Fund under an investment advisory agreement between the Advisor and the Trust on behalf of the Fund (the "Advisory Agreement"). The Advisory Agreement is approved on an annual basis by the Fund's Board of Trustees (the "Board"), including a majority of its trustees who are not "interested persons" of the Fund. Under the terms of the Advisory Agreement, the Fund pays the Advisor an investment management fee based on a percentage of average net assets. This rate is currently set at 0.25% annualized. The Board reviews the Advisory Agreement with the Advisor annually or more often if appropriate. A discussion regarding the basis of the Board's approval of the Advisory Agreement is available in the Fund's Annual Report to Shareholders for the period ended December 31, 2017.

The SAI provides additional information about the portfolio manager's compensation, other accounts managed by the portfolio manager and the portfolio manager's ownership of securities in the Fund.

The Fund is a fund of the Trust. All of the funds of the Trust share in the expenses associated with managing and administering the funds. Common expenses incurred by the Trust are allocated among the funds based on the ratio of net assets of each fund to the combined net assets of the Trust. Fund specific expenses are charged directly to the fund that incurred the expense. The Funds are owned by the shareholders and the Board oversees the management and administration of the Funds.

VALUATION OF SHARES

Net Asset Value

The Net Asset Value ("NAV") of a share of the Fund is calculated based on the closing price of securities on each day that the New York Stock Exchange ("NYSE") is open (normally 4:00 P.M. Eastern Time). The NAV is determined by dividing the total of the Fund's net assets by the total number of outstanding shares of the Fund. The Funds' NAV will not be computed for any days on which the market is closed, including national holidays (generally New Year's Day, Martin Luther King Day, President's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas).

The Trust can take no responsibility for errors by other mutual funds in reporting their net asset values or by third party sources used for pricing.

Fair Value Pricing

The Board has developed procedures that utilize fair value pricing when any assets for which reliable market quotations are not readily available or may be stale. Fair value pricing is defined as the amount an owner might reasonably expect to receive upon the current sale of a security. As a practical matter, the issue rarely if ever arises for the Fund because of the nature of the Fund's investments, which are purchased and sold in markets and funds that are either continuously priced during the day or are priced at the close of market trading.

BUYING SHARES

The Fund's shares are sold without a sales charge/load and with a 12b-1 fee of up to 0.25% of average daily net assets.

If a check is returned for insufficient funds, the purchase will be cancelled and a reasonable fee may be assessed by the Fund. In addition, if the Fund suffers a loss due to the cancelled transaction, we may charge you the difference. The STAAR Funds do not accept future-dated checks.

EXCHANGING SHARES

You may exchange shares of one STAAR Fund for another either by phone or by signed instructions mailed or faxed to Shareholder Services.

SELLING SHARES

You can sell your shares on any day the Trust is open for business. Generally, you can sell up to \$40,000 total from any Fund or combination of Funds over the phone or by a signed letter delivered to Shareholder Services. Be sure to include the signatures of all registered owners as on the original application or any subsequent change of authorized signatures. However, to protect you and the Trust, we may require written instructions with a signature guarantee for each owner if:

- You are selling more than \$40,000 worth of shares.
- You want to have proceeds paid to someone who is not a registered owner.
- You want to have the proceeds sent to an address other than the address of record.
- You have changed the address on your account by phone within the last 15 days.

You may also redeem your shares through a broker-dealer if your shares are held through a broker-dealer account. In this case you must call your broker-dealer who will then execute your trade instructions. A broker-dealer may impose a separate fee for such transactions.

Your redemption will be calculated at the share price equal to the Net Asset Value at the end of the day your request is received if it is received by Shareholder Services before 4:00 P.M. (Eastern Time), or before the market close, if earlier. (If the market closes earlier, the NAV will be calculated as of the actual closing time. If the request is received after such closing time, even if before 4 PM, you will receive the next day's closing price.) If the request is received after such time or on a day the Trust is not open for business, it will be processed as of the close of the next business day. Requests placed on your behalf by an authorized broker-dealer will be treated as if you made the request personally.

Your redemption check will generally be mailed to you via first-class mail within seven days after we receive your request in proper form. We will use Priority Mail or Overnight Mail if requested, but your account will be charged for this service.

If you want to sell shares recently purchased by check or bank draft, your redemption

proceeds may be held by us until your check or draft has cleared, which could take up to fifteen days from the purchase date.

The Fund typically expects to satisfy redemption requests from available cash and cash equivalents or the sale of portfolio assets.

REDEMPTION FEES AND RESTRICTIONS

The Fund does not currently charge a fee for redemptions. However any costs due to special handling requests other than normal mail will be deducted from the account or from the redemption proceeds if the account is being closed. Furthermore, where the Fund experiences frequent trading by any account or groups of accounts that could potentially harm performance, the Funds may impose restrictions on trading. If you are contemplating a large redemption, please call Shareholder Services in advance. This allows the advisors to plan any needed transactions and avoid disruptive effects to the Fund.

Good Order

We reserve the right to delay transaction instructions that are not in "good order." Good order involves verification of identity by phone, written and signed Letter of Instruction (LOI) delivered via mail or fax, or by email with signature imbedded or LOI attached as a pdf document. To be in good order, instructions must:

- Be provided by person(s) authorized on the account in accordance with Fund's policies to access the account and request transactions.
- Include the Fund name and account number.
- Include the amount of the transaction in terms of shares or dollars or percentages.
- Signature guarantees or other supporting documents that the type of transaction might require, which can vary depending on the amounts and types of accounts.

The Trust reserves the right to revise these requirements without notice

Trade Date for Crediting Purchases, Exchanges and Redemptions

The trade date for any transaction requested will depend on the day and time the request is received by Shareholder Services and the time and manner in which you pay (for a purchase). Your transaction will be executed only on days that the NYSE is open for trading (a business day). Your order will be calculated at the share price equal to the Net Asset Value calculated at the close of trading on the NYSE (usually 4:00 P.M. Eastern Time) on the business day your request is received if it is received by Shareholder Services before 4:00 P.M., or before the market close, if earlier. (If the market closes earlier, the NAV will be calculated as of the actual closing time. If the request is received after such closing time, even if before 4:00 PM, you will receive the next day's closing price.) If the order is received after the market close or on a day the Trust is not open for business, it will be processed at the NAV calculated on the next business day.

Foreign Investors

Generally Fund shares are not sold outside the United States. Foreign investors who might buy shares in the U.S. should be aware that U.S. withholding and estate taxes might apply to your investment in the Fund.

Invalid Address

If a distribution or capital gain check is returned as undeliverable, the distribution amount will be automatically reinvested and all future distributions will be reinvested until you

provide a valid address and instruct distributions to be paid in cash and mailed to the valid address.

Responsibility For Fraud

Neither the Fund nor its directors or service companies will be responsible for any account losses due to fraudulent activities if we reasonably believe that the person transacting business on an account is authorized to do so. You should carefully review your statements and notify Shareholder Services immediately regarding any transactions that you believe to be unauthorized.

Dormant Accounts

If an account has no activity for a period of time, the Fund may be required to transfer it to a state under its abandoned property law.

Accounts With Low Balances

The Trust reserves the right to close accounts with balances low enough to cause extra expense, which would be detrimental to other shareholders. Generally, this applies to any Fund account with a balance less than \$500 in any one Fund. If the Trust elects to exercise this right, and if your account falls into this category, a letter will be mailed to you giving you the option of adding to your account, exchanging shares of the Fund for shares in another Fund to meet the minimum, or closing it within 30 days.

Changes In Investment Minimums

At any time, the Trust may change its investment minimums or waive minimums for certain types of purchases.

Joint Accounts

Where two individuals are registered as owners, the Trust will designate the ownership as "joint tenants with rights of survivorship" unless specified otherwise. All registered owners must agree in writing to any ownership changes.

Right To Delay Orders

The Trust reserves the right to delay purchase, exchange or redemption orders which it considers not properly requested or where there is some doubt as to whether the proper owner has made the request, where a required signature guarantee is not provided or where the order is received on a day the markets are closed or emergency conditions exist as allowed by Section 22 of the Investment Company Act of 1940.

The Fund reserves the right to stop selling Fund shares or reject any purchase request at any time and without notice, including, but not limited to, purchases requested by exchange from any other STAAR Fund. This also includes the right to reject any purchase request because of a past history of frequent trading by the investor or because the purchase may negatively affect a fund's operations or performance.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Dividends and distributions

The Fund intends to qualify each year as a regulated investment company under the Internal Revenue Code. As a regulated investment company, the Fund generally pays no federal income tax on the income and gains it distributes to you. The Fund expects to declare distributions and distribute all of its net investment income and distribute net capital gains, if any, to shareholders annually. The Fund may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or

income taxes on the Fund. The amount of any distribution will vary, and there is no guarantee the Fund will pay either an income dividend or a capital gains distribution.

Annual statements

Each year, the Fund will send you an annual statement (Form 1099) of your account activity to assist you in completing your federal, state, and local tax returns. Distributions declared in December to shareholders of record in such month, but paid in January, are taxable as if they were paid in December. Prior to issuing your statement, the Fund makes every effort to reduce the number of corrected forms mailed to you. However, if the Fund finds it necessary to reclassify its distributions or adjust the cost basis of any covered shares (defined below) sold or exchanged after you receive your tax statement, the Fund will send you a corrected Form 1099.

Avoid "buying a dividend"

At the time you purchase your Fund shares, the Fund's NAV may reflect undistributed income, undistributed capital gains, or net unrealized appreciation in value of portfolio securities held by the Fund. For taxable investors, a subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable. Buying shares in the Fund just before it declares an income dividend or capital gains distribution is sometimes known as "buying a dividend."

Tax considerations

Fund distributions. The Fund expects, based on its investment objective and strategies, that its distributions, if any, will be taxable as ordinary income, capital gains, or some combination of both. This is true whether you reinvest your distributions in additional Fund shares or receive them in cash.

For federal income tax purposes, Fund distributions of short-term capital gains are taxable to you as ordinary income. Fund distributions of long-term capital gains are taxable to you as long-term capital gains no matter how long you have owned your shares. Because the income of the Fund is primarily derived from investments earning interest rather than dividend income, generally none or only a small portion of the income dividends paid to you by the Fund is anticipated to be qualified dividend income eligible for taxation by individuals at long-term capital gain tax rates.

The use of derivatives by the Fund may cause the Fund to realize higher amounts of ordinary income or short-term capital gain, distributions from which are taxable to individual shareholders at ordinary income tax rates rather than at the more favorable tax rates for long-term capital gain.

Sale or redemption of Fund shares. A sale or redemption of Fund shares is a taxable event and, accordingly, a capital gain or loss may be recognized. For tax purposes, an exchange of your Fund shares for shares of a different Fund is the same as a sale. The Fund is required to report to you and the Internal Revenue Service ("IRS") annually on Form 1099-B not only the gross proceeds of Fund shares you sell or redeem but also the cost basis of Fund shares you sell or redeem that were purchased or acquired on or after Jan. 1, 2012 ("covered shares"). Cost basis will be calculated using the Fund's default method, unless you instruct the Fund to use a different calculation method. Shareholders should carefully review the cost basis information provided by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns. If your account is held by your investment representative (financial advisor or other broker), please contact that representative with respect to reporting of cost basis and available elections for your account. Tax-advantaged retirement accounts will not be affected.

Medicare tax. An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund shares) of US individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds a threshold amount. This Medicare tax, if applicable, is reported by you on, and paid with, your federal income tax return.

Backup withholding. By law, if you do not provide the Fund with your proper taxpayer identification number and certain required certifications, you may be subject to backup withholding on any distributions of income, capital gains, or proceeds from the sale of your shares. The Fund also must withhold if the IRS instructs it to do so. When withholding is required, the amount will be 24% of any distributions or proceeds paid.

State and local taxes. Fund distributions and gains from the sale or exchange of your Fund shares generally are subject to state and local taxes.

Non-US investors. Fund shares are generally not sold outside the United States. Non-U.S. investors should be aware that U.S. withholding at a 30% or lower treaty tax rate, special tax certification requirements to avoid U.S. backup withholding and claim any treaty benefits, and U.S. estate taxes, may apply to any investment in the Fund.

This discussion of "DIVIDENDS, DISTRIBUTIONS AND TAXES" is not intended or written to be used as tax advice. Because everyone's tax situation is unique, you should consult your tax professional about federal, state, local, or foreign tax consequences before making an investment in the Fund.

POLICY REGARDING EXCESSIVE OR SHORT-TERM TRADING

The Board has adopted policies and procedures to guard against frequent trading abuses by shareholders. Tools to combat frequent trading include the following:

The Fund discourages excessive, short-term trading and other abusive trading practices that may harm the Fund's performance. The Fund is intended for long-term investors. Short-term traders who engage in frequent purchases and redemptions can disrupt a fund's investment program and create additional transaction costs that are borne by all fund shareholders.

The Advisor does not knowingly accommodate frequent traders or investors trying to gain a short-term advantage based on closing valuations in a fund. For example, transactions in fund shares that exceed certain amounts or occur on multiple days within short time periods may be scrutinized. However, there is no assurance that the Fund's advisor or shareholder services provider will be able to detect or prevent frequent trading or market timing in all circumstances. The Fund has the right to refuse any trades that the Advisor thinks could harm the majority of shareholders. If you are a market timer or engage in time zone arbitrage, do not use this Fund or any other fund in the Trust.

The Fund uses a variety of techniques to monitor and detect abusive trading practices, and may change these techniques from time to time as determined by the Fund in its sole discretion. The Fund reserves the right to reject any purchase order from any person the Fund believes has a history of abusive trading, or whose trading may be disruptive to the Fund. In making this judgment, the Fund may consider trading done in multiple accounts that are under common control. Although the Fund tries to identify and restrict frequent trading, in instances in which the Fund receives orders through financial intermediaries it is very difficult to know or detect frequent trading. Accordingly, the Fund also monitors the procedures and policies in place at such intermediaries in order to protect Fund shareholders from abusive short-term trading.

Information regarding the policies of any underlying funds that the Fund might hold can be found in those funds' prospectuses and reports as filed with the SEC.

The Board has adopted policies and procedures on the following, which may be obtained from the Advisor at no charge or on the Fund's Internet site at www.staarfunds.com: Proxy Voting Policy and Fair Value Pricing Policy. In addition the Board periodically monitors Fund activities to protect shareholders from abusive trading, conflicts of interest and other activities or issues that could adversely affect shareholders.

The Board annually reviews the Investment Portfolio Advisor's agreement and the managers ownership of securities owned in the Fund(s)' portfolios. Additional information and/or discussion on this may be found in the Annual and Semi-annual reports of the Fund. The Board also reviews the compensation and other accounts managed by the portfolio manager. Additional information may be found in the SAI.

DISTRIBUTION ARRANGEMENTS

Sales Loads

The Fund does not impose any sales loads (charges) on the purchase or redemption of Fund shares or on distributions, whether reinvested or not.

12b-1 Fees

The Fund has adopted a plan under rule 12b-1 that allows the Fund to pay distribution fees for the sale and distribution of its shares and/or services provided to shareholders. The maximum fee is 0.25%. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Brokerage Allocation

The Board and/or Advisor may select brokers who execute purchases and sales of each Fund's securities and provide other brokerage and research services. The Fund is authorized to pay commissions to such brokers in excess of that which might be obtained with other brokers in recognition of services provided. Where a Fund owns other mutual funds, and such funds pay 12b-1 fees, these fees may be paid to brokers as part of their compensation. The Board may authorize use of a broker-dealer that may have a relationship with officers or employees of the Advisor, whereby commissions and 12b-1 compensation can be paid to such officers or employees. No such arrangements existed during the past fiscal year.

FINANCIAL HIGHLIGHTS

The Financial Highlights table is intended to help you understand the General Bond Fund's financial performance for the past 5 years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by Goff Backa Alfera & Co., LLC, whose report, along with the Fund's financial statements, are included in the Fund's Annual Report, which is available upon request.
